

# Atlantis Coin<sup>®</sup> (A) Tokenomics

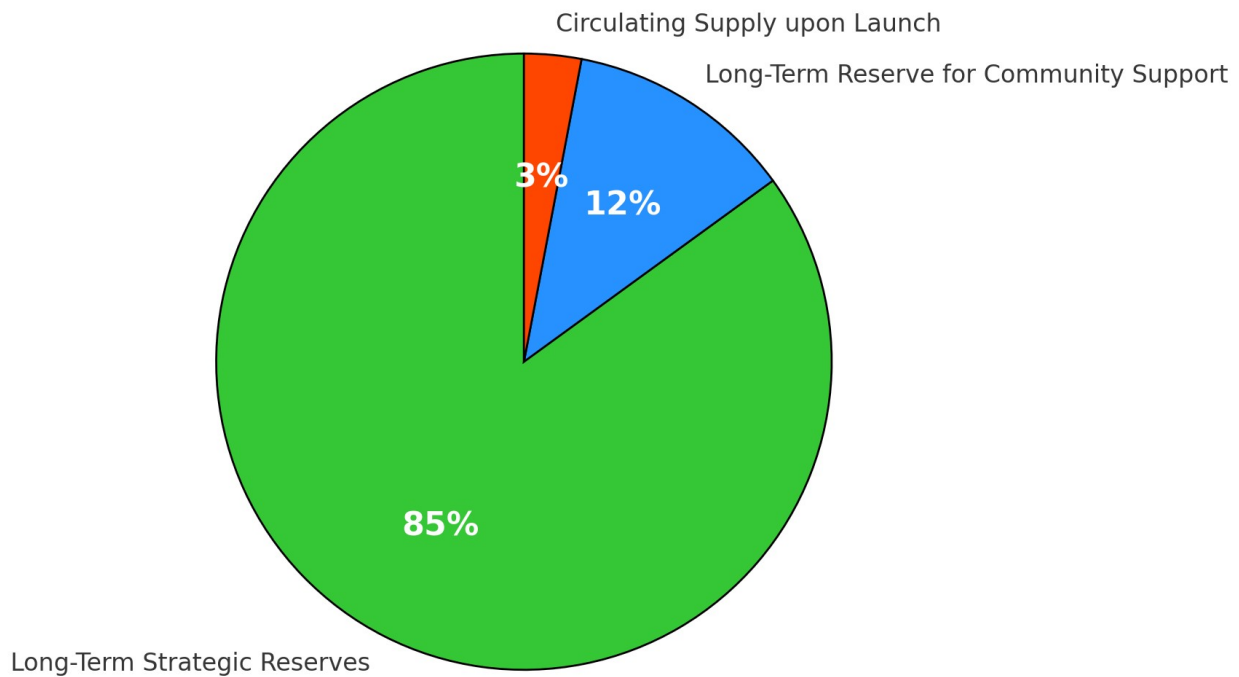

## Overview

AtlantisChain, USA proudly supports President Trump’s bold initiative to establish the Crypto Strategic Reserve, a historic move that solidifies the United States as the global leader in blockchain innovation and the “Crypto Capital of the World.”

Under President Trump’s visionary leadership, AtlantisChain — *built on four foundational U.S. pillars: U.S.-designed, U.S.-developed, U.S.-delivered, and U.S.-operated* — is set to revolutionize the digital economy, empowering crypto communities not only across the United States but worldwide.

As the native token and core asset of AtlantisChain, Atlantis Coin® (ATC) serves as a high-performance utility digital asset, designed to drive long-term sustainability, strategic economic growth, and high-throughput blockchain transactions capable of processing millions of TPS globally.

This following tokenomics framework ensures a balanced supply mechanism, strong liquidity support, and alignment with America First principles, integrating the 4-US Features: U.S. National, U.S. Institutional, U.S. State, and U.S. Community adoption.
